Chicago, IL. LKQ Corporation (Nasdaq: LKQ) yesterday reported first quarter 2023 financial results. "Overall, the first quarter was a terrific start to the year, and we remain on track to deliver on our full year guidance. Our two largest segments, Wholesale - North America and Europe, exceeded our expectations in the quarter as our teams continue to embrace operational excellence and execute our key initiatives. Our Wholesale - North America segment delivered its highest first quarter parts and services organic revenue growth rate and quarterly Segment EBITDA margin on record, at 14.4% and 20.5%, respectively. I am also pleased with our Europe segment reporting organic revenue growth of 9.7% and Segment EBITDA margin of 9.7%, the latter reflecting a year-over-year improvement of 90 basis points and the best first quarter performance since 2016 when it was a much smaller operation," noted Dominick Zarcone, President and Chief Executive Officer. "We are excited about the balance of the year and the pending acquisition of Uni-Select to strengthen our existing LKQ operations."

First Quarter 2023 Financial Results

Revenue was \$3.3 billion in the first quarter of both 2023 and 2022. For the first quarter of 2023, parts and services organic revenue increased 7.9% (7.1% on a per day basis), while the net impact of acquisitions and divestitures decreased revenue by 3.3% and foreign exchange rates decreased revenue by 3.0%, for a total parts and services revenue increase of 1.5%. Other revenue fell 19.2% in the first quarter of 2023 primarily due to weaker commodity prices relative to the same period in 2022.

Net income² for the first quarter of 2023 was \$270 million as compared to \$269 million for the same period in 2022. Diluted earnings per share² for the quarter was \$1.01 as compared to \$0.94 for the same period of 2022, an increase of 7.4%.

On an adjusted basis, net income^{1,2} in the first quarter of 2023 was \$279 million as compared to \$287 million for the same period of 2022, a decrease of 2.8%. Adjusted diluted earnings per share^{1,2} for the first quarter of 2023 was \$1.04 as compared to \$1.00 for the same period of 2022, an increase of 4.0%.

Cash Flow and Balance Sheet

Cash flow from operations and free cash flow¹ were \$223 million and \$153 million, respectively, for the first quarter of 2023. As of March 31, 2023, the balance sheet reflected total debt of \$2.7 billion and total leverage, as defined in our credit facility, was 1.6x EBITDA.

Stock Repurchase and Dividend Programs

During the first quarter of 2023, the Company invested \$5 million to repurchase 0.1 million shares of its common stock. Since initiating the stock repurchase program in late October 2018, the Company has repurchased approximately 55 million shares for a total of \$2.4 billion through March 31, 2023.

On April 25, 2023, the Board of Directors declared a quarterly cash dividend of \$0.275 per share of common stock, payable on June 1, 2023, to stockholders of record at the close of business on May 18, 2023.

Other Events

On February 27, 2023, the Company announced that it entered into a definitive agreement to acquire all of Uni-Select Inc.'s issued and outstanding shares for C\$48.00 per share in cash, representing a total enterprise value of approximately C\$2.8 billion (US\$2.1 billion). Founded in Boucherville, Québec, Canada in 1968, Uni-Select is a leader in the distribution of automotive refinish and industrial coatings and related products in North America through its FinishMaster segment, in the automotive aftermarket parts business in Canada through its Canadian Automotive Group segment and in the U.K. through its GSF Car Parts segment. This acquisition will complement the Company's existing North American paint distribution operations and provides a scaled position in the

Canadian mechanical parts space, with opportunity for future consolidation and growth. The Company intends to divest Uni-Select's GSF Car Parts segment on or shortly after the acquisition closing date, which the Company expects to occur during the second half of this year after receiving the required approvals to close the acquisition and the satisfaction of other customary closing conditions.

2023 Outlook

Rick Galloway, Senior Vice President and Chief Financial Officer, commented: "The Wholesale - North America and Europe segments are performing ahead of expectations, offsetting the softness in the Specialty and Self Service segments, including lower precious metal prices, and the higher effective tax rate. Therefore, with these offsetting effects, we are maintaining our prior guidance."

For 2023, management reiterated the outlook as set forth below:

	2023 Full Year Outlook
Organic revenue growth for parts and services	6.0% to 8.0%
Diluted EPS ²	\$3.68 to \$3.98
Adjusted diluted EPS ^{1, 2}	\$3.90 to \$4.20
Operating cash flow	approx. \$1.275 billion
Free cash flow ¹	approx. \$975 million
Free cash flow conversion of EBITDA ¹	55% to 60%

Our outlook for the full year 2023 is based on current conditions and recent trends, and assumes a global effective tax rate of 26.6%, the prices of scrap and precious metals hold near the March average, and no further deterioration due to the Ukraine/Russia conflict. We have applied foreign currency exchange rates near March and April average levels, including \$1.08 and \$1.23 for the euro and pound sterling, respectively, for the balance of the year. Changes in these conditions may impact our ability to achieve the estimates. The full year GAAP outlook includes transactions and costs related to the potential Uni-Select acquisition that occurred through March 31, 2023 but does not include any projected operational results for Uni-Select, which will only be incorporated after the closing date. Adjusted figures exclude (to the extent applicable) the impact of restructuring and transaction related expenses; amortization expense related to acquired intangibles; excess tax benefits and deficiencies from stock-based payments; losses on debt extinguishment; impairment charges; direct impacts of the Ukraine/Russia conflict (including provisions for and subsequent adjustments to reserves for

asset recoverability and expenditures to support our employees and their families), interest and financing costs related to the Uni-Select transaction prior to closing and gains and losses related to acquisitions or divestitures (including changes in the fair value of contingent consideration liabilities and gains or losses on foreign currency forward contracts related to the Uni-Select acquisition).

¹ Non-GAAP measure. See the table accompanying this release that reconciles the actual or forecasted U.S. GAAP measure to the actual or forecasted adjusted measure, which is non-GAAP.
